Sahjanand Vidhyalay
2019 | 84.00%

PROJECTS

Hospital & Healthcare Analytics

Analyze hospital operations, patient visits, treatments, revenue, insurance payments, doctors and departments to identify performance trends and support data-driven healthcare business decisions.

Food Waste & Profit Analytics

Analyze food sales, waste, inventory and profit opportunities across products, categories and stores to identify major waste drivers, improve inventory efficiency and reduce avoidable losses.

Banking & Loan Analytics

Analyzed customers, loans, repayments and interest income. Created executive dashboard for loan performance analysis.

SKILLS

- Excel: Pivot Tables, VLOOKUP, SUMIFS, COUNTIFS
- SQL: Joins, GROUP BY, HAVING, Subqueries
- Power BI: Power Query, DAX, Data Modeling
- Python: Pandas, Data Cleaning
- Other: DBMS, Data Visualization
